## SUMMARY

Aspiring Cloud Engineer | Fourth-Year Engineering Student | Passionate About Technology & Innovation.

As a Fourth-year engineering student with a keen interest in cloud computing, I am excited to be at the intersection of technology and innovation. My journey in cloud computing has just begun, and I'm eager to dive deeper into this field, expanding my knowledge and skills. I thrive on learning new technologies and am constantly exploring the latest trends in the tech world. Let's connect and explore the limitless possibilities in technology together!

## EDUCATION

DY Patil International University (GPA: 7.2)

Expected: June 2026

Govt. Higher Secondary Bahela  
(GPA: 87%)

2022

## WORK EXPERIENCE

### Intern

WORD LANE TECH

May '25 — Present

Pune, India

- Working as cloud computing internship at Word Lane Tech, gaining hands-on experience with AWS services, cloud infrastructure setup, deployment automation, and monitoring.
- Assisted in real-time projects, improving scalability, security, and performance of cloud-based applications using industry best practices.

### Rural Intern

Jul '23 - Sep '23

Chicholi, India

- Completed a rural development internship focused on identifying key challenges faced by villagers, including water access, education, and healthcare.
- Proposed practical solutions through surveys, community interaction, and data analysis to support sustainable development and improve living conditions.

## PROJECTS

### Secure and Scalable Multi-VPC Web Application Infrastructure

Jan '25

- Design and implement a secure, scalable, and highly available multi-tier web application across multiple VPCs using core AWS networking and security services.

### Cloud-Based Employee Management with Cost Optimization using AWS EC2

Aug '25

- OptiStaff Cloud is a cost-optimized employee database management system deployed on AWS EC2. It focuses on efficient resource utilization, ensuring scalability and reduced operational costs while maintaining secure and reliable employee data access.

## SKILLS

**Cloud Computing** AWS, Microsoft Azure

**Virtualization** EC2, S3, VPC, IAM, Lambda

**Containerization** Docker, Kubernetes

**Monitoring & Logging** CloudWatch

**Version Control & Security** Git, IAM, encryption, firewall rules

## CERTIFICATES

Rural Area Development, Gram Panchayat Chicholi

Jul '23

Azure Deep Dive Cloud Mastery, School Of Skill Development

Nov '24

Command the shell: A Journey Through Linux, Clydex Student Club

Oct '24

Aws re/start Program, ILMTEC & DrCloud

Sep '25

Oracle Cloud Infrastructure 2025 Foundations Associate, Oracle Univesity

Oct '25

AWS Certified Cloud Practitioner, Amazon Web Services

Nov '25
